***Allowable Subject Matter***

1. Claims 1-17 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 12, the applicants have presented persuasive arguments, see pages 1-2 of the response filed 5/15/2006, that the reference of Tran (US 6,602,112) does not disclose a benzene ring structure having a sulfonate in an alpha position with another polar moiety. Therefore, the rejection(s) of claims 1, 12 under 35 U.S.C 103(a) over Weinstein (US 6,902,590) over Tran et al (US 6,602,112) have been withdrawn.

Regarding claims 14-16, the applicants have presented persuasive arguments, see page 3 of the response filed 5/15/2006, that in contrast to the claimed inventions as per claims 14-16, the reference of Minamihaba (US 6, 853,539) discloses a post-CMP cleaning fluid comprising dodecylbenzene sulphonate and the benzene sulfonic acid compound of Minamihaba has a C12 alkyl group attached in the ortho position to the sulfonate and this C12 alkyl group is about as non-polar as a moiety can be. Therefore, the rejection(s) of claims 14-16 under 35 U.S.C 103(a) over Minamihaba (US 6, 853,539) and Tran et al (US 6,602,112) and further in view of Tseng (US 6,455,428) have been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
